He reports that he has already re-felted the wheelchair shed roof with a double layer of felt so it should not be leaking anymore. He is away next week but when it is raining again, he is going to come and check it. When I felt the ceiling, it still felt damp and has black mildew growing in the gap. This could also be because of the original leak but I'm still going to ask him to sort it out whether it's the original issue or whether there is still a leak”. Also, discussed need for additional volunteers, notice to be sent to Bamburgh Google Group.
